"K.GLASS" protection

Manufacturing:

The "K.GLASS" is a layer product manufactured on line, at high temperature, at oven output, where there fines metal particles are spread by pyrolysis on float clear surface, forming in that way an integrated layer to the door surface part. This layer is made with precious metals which give to the glass door quality of very low emissions, then a high resistance to the thermal radiance.

SPECIFICATIONS

Weight: 125Kg, Capacity of poultries: 15/20, Number of baskets:5.

Complies with the standards and decrees to date:

_ EN 60335-1 May 2003 and its amendments

_ EN 60335-2-36 May 2005 and its amendments

Comply with Directive 2006/95/EC of the European Parliament and of the Council of the European Union

Stainless presentation inside with central axis, support and removable swing trays.

Entirely insulated. Régulation of the température by convection cooking.

Digital control of the température and time. Alarm at end of cooking cycle. Washing cycle.

1 front face glass door (anti-burns K.Glass) fitted on removable silicon joint.

Internal lighting by 2 halogen lamps protected by glass cover.

Power supply 400 Volts 3 Phases + Neutral + Earth (230 Δ400Y3N~) **Electrical power 4,5 kW**, wire lenght: 2 meters

Provide extraction hood of a flow of 1500 to 2000 m³/h with speed variator

OPTIONS AND ACCESSORIES: base cabinet with 2 doors ref. SC5.52MS, grease captor ref. CAP5.520, roof protection ref. TP5520 against the cast of grease extraction hood, decorative band "rotisserie" ref. FBP520BDE, façade color ref. COUL, safety glass and screen-printed double glazed curved to one side ref. GLBS5520, high pressure shower ref. DOUCH, grease tray ref. BG, insulated stainless steel bottom, swing trays, spit, trays, tray potato, bags high t ° fat .
